Visoka peæ u Zenici obustavila proizvodnju  
Uprava koncerna najavila otpuštanje 9.000 radnika u svojim pogonima širom svijeta...  
29.11.2008. 14:05

Najveæi èelièni koncern na svijetu Arcelor Mittal saopæio je juèer da namjerava, zbog pada potražnje njegovih proizvoda sa svih strana svijeta, ukinuti do 9.000 radnih mjesta.

Iz sjedišta koncerna u Luksemburgu su potvrdili da æe otpuštanje u svim pogonima uslijediti prije svega "u oblasti prodaje i uprave" i da nemaju namjeru smanjivati broj uposlenih u direktnoj proizvodnji, zbog moguæih naglih promjena nabolje.

Teška odluka

Tim rezovima potrebno je uštedjeti oko milijardu dolara. Arcelor Mittal trenutno u više od 60 država zapošljava 326.000 ljudi, a prema zvaniènim izjavama, proizvodnja je u ukupnom prosjeku smanjena za 35 posto.

Na pitanje koji æe proizvodni pogoni slati radnike kuæi, portparol Arcelor Mittala je odgovorio da æe otpuštanja biti po èitavom svijetu, prenose svjetske agencije.

Koncern je poèetkom novembra najavio da æe smanjiti proizvodnju za 35 do 40 posto, a iako su do sada tvrdili da ne planiraju otpuštanja, odluka je ipak donesena, prije svega zbog smanjene potražnje u automobilskoj industriji.

- To je bila vrlo teška odluka za kompaniju, jer su nam uposlenici jako važni - kazao je èlan Uprave Arcelor Mittala Bernard Fontana, prenosi "Forbes".

Topli režim

Kako saznajemo, u zeniekom Arcelor Mittalu veæ je "zagašena" visoka peæ, koja je trebala imati uspon proizvodnje i vraæanje na integralnu proizvodnju od dva miliona tona, nakon 15 godina stajanja.

Umjesto toga, u toku je "topli režim održavanja", a na zalihama kompanije veæ je skoro 200.000 tona koksa, koji je proizveden kao "višak", jer je smanjena proizvodnja èelika.

Zasad bez otkaza

Iz Sindikata Arcelor Mittala podsjeæaju da su dobili obeæanja da neæe biti otpuštanja, ali navode da još ne znaju hoæe li se juèerašnja odluka Uprave odnositi i na zenieku kompaniju.
