Da li ste znali da je većina islamskih učenjaka, od kojih su i tri pravne škole – hanefijska, malikijska, hanbelijska – zastupala stav da ne postoji razlika između muža i supruge u pogledu obaveze odazivanja u postelju radi spolnog odnosa, osim ako za to postoji validan šerijatski razlog, kao što je bolest, period mjesečnice, boravak u ihramima?

Kao što muž ima pravo da od supruge traži spolni odnos, to isto pravo ima i supruga. To su argumentovali sa više argumenata, jedan od njih je hadis Abdullaha ibn Amra ibn el-Asa, da mu je Poslanik, alejhis-selam, kazao: "Tvoje tijelo ima pravo kod tebe, tvoje oko ima pravo kod tebe, tvoja supruga ima pravo kod tebe." (Buharija i Muslim)

Da li ste znali da je šejh Albani slabim (daif) ocijenio hadis Omera, r.a.: "Allahov Poslanik zabranio je da se ejakulira izvan rodnice slobodne žene osim sa njenom dozvolom" (Ibn Madže, daif – slabim ga je ocijenio šejh Albani)? Na osnovu ovog hadisa većina islamskih učenjaka, od kojih su i tri pravne škole, hanefijska, malikijska, hanbelijska, te jedan dio učenjaka šafijske pravne škole, zastupali su stav da muškarcu nije dozvoljeno da ejakulira izvan rodnice supruge koja je slobodna (suprotno robinja) osim sa njenom dozvolom.

Da li ste znali da šejhul-islam Ibn Tejmijje spominje u svojim fetvama da je obaveza skrušenost u namazu, a ne pohvalna stvar? Na spomenuto mišljenje ukazuju mnogi argumenti, jedan od njih je hadis Allahovog Poslanika: "Zaista èovjek završi sa namazom a nije mu upisano (primljeno) od tog namaza ništa više od njegove desetine, devetine, osmine, sedmine, šestine, petine, èetvrtine, trećine, polovine."
