

## Muhammed s.a.w.s. kao divan uzor

Posted by Seka - 2008/10/14 19:23

„ A kada Isa, sin Merjeme, reèe: O sinovi Israilovi, ja sam vam doista Allahov poslanik, - da vam potvrdim istinitim Tevrat prije mene objavljen, i da vam vijest radosnu o Poslaniku, imena Ahmed prenesem, koji æe doæi nakon mene. Pa kad im doðe s jasnim dokazima, oni rekoše: Ovo je jasna vradžbina". Kur'an ( LXI:6 ) „ Ja imam više imena: ja sam Muhammed i Ahmed, ja sam el-Mahi - kojim Allah,dž.š., briše nevjerstvo, ja sam i el-Hašir, prvi koji æe biti oživljen i poslije koga æe ljudi biti oživljeni, a ja sam i el-Akib -poslije mene neæe više biti poslanika". (Hadis bilježi Buharija i Muslim)

Ibn Kesir navodi u svom komentaru Kur'ana da je događaj sa vlasnicima slona, spomenut u suri El-Fil, bio priprema i nagovještaj dolaska Allahovog Poslanika, a.s., jer je on, po najvjerodostojnim predanjima, rođen upravo te godine. Naime, pomenuta sura aludira na abesinsku kampanju protiv Mekke. Ebrehe, kršæanski kralj Jemena ( kojim su u to vrijeme upravljali Abesinci ), podigao je veliku katedralu u Sena2i, nadajuæi se tako da æe skrenuti godišnje arapsko hodoèašæe iz mekkanskog svetišta Kabe u novu crkvu. Kada se nisu ostvarila njegova nadanja, krenuo je sa velikom vojskom, ukljuèujuæi i slonove, da sruši Kabu. U komentaru se veli da bi slon legao kada bi ga okrenuli prema Kabi. Kada bi ga njegovi vlasnici okrenuli prema drugoj strani, ustao bi i krenuo. Zatim je Allah, dž.š., na njih poslao nepregledne grupe ptica ( ehabil ), od kojih je svaka nosila po tri kameniæa (glina u obliku kamenja-bi hidžaretin min sidždžil ), po dva u nogama i jedan u kljunu. Kad bi iznad njih naletjele, graknule bi, a onda na njih izruèile kameniæe iz kandži i kljuna. Takva je bila kazna koja ih je pogodila. Allah, dž.š., ih je uèinio kao lišæe koje su crvi istoèili ( keasfin me2kul). Rijeè „el-Asfu" koristi se za opis lišæa od bilja i povræa, koje, kada životinje pojedu, rastoèe. Kazna Božija je pokosila nadmenu Ebrehinu vojsku da nisu bili vrijedni ni sažvakanog bilja u ustima životinje.

Kada je Uzvišeni Allah poslao kao poslanika Muhammeda,a.s., On je meðu blagodate i dobrotu prema Kurejšijama ubrojao i to kad je od njih odvratio Abesince.

---

## RAZUMJEVANJE POSLANIÈKE MISIJE

Posted by Seka - 2008/10/14 19:24

Da bi shvatili bit islama od posebne je važnosti shvatiti znaèaj Poslanika sa stanovišta tradicionalnih muslimana. Odakle tolika ljubav muslimana prema svom Poslaniku kada su posrijedi kako njegove rijeèi tako i njegova djela, odakle ta silna želja da se to pretoèi u svakidašnju razinu života kako individualnog tako i porodiènog? Zaista na ovakvu zapitanost ostæe uskraæen za odgovor svaki onaj koji je udaljen od vjere, zapravo, svaki onaj koji nije teoretski ni praktièno dokuèio i osjetio ulogu Poslanika kao navjestitelja Božije Poruke.

Kur'an jasno tvrdi da je Poslanik èovjek a ne božanstvo ali dodaje da ga je Uzvišeni Allah odabrao kao Poslanika, da mu je dat najuzvišeniji i najplemenitiji karakter, te da je odabran kao uzor muslimanima.

U ovih nekoliko navedenih èinjenica, naravno koje su utemeljene na kur'anskom tekstu, krije se najvažnija misao i sadržina razumjevanja poslanstva u islamu i ulozi Muhammeda, a.s., u njoj. Vrlo važno je imati na umu da je Poslanik smrtan èovjek ali takoðer i najsavršenije Božije Stvorenje. Takvo razumjevanje uloge Poslanika demistificira kako njegovu ulogu tako i poruku vjere.

Muhammed, a.s., znao je, i bio je uvijek opominjan, da je on samo èovjek. Njegova prednost je bila u Božijem izabranju za Poslanika kome je Objava dolazila.

„ Ti reci: Ja sam samo èovjek poput vas, meni se objavljuje da je vaš Bog samo jedan Bog, pa k njemu se iskreno upravite i oprostite od Njega tražite! A teško li mnogobošcima". (XLI:6)

„ Ti reci: Ne govorim vam-Allahove riznice ja imam! Ne govorim vam- Nevidljivi svijet ja znam! Ne velim vam - Ta, doista, melek sam! Ja slijedim samo ono što mi se objavljuje..." (VI:50)

Pored ovakvog opisa liènosti Poslanika, ipak, u Kur'anu se nalaze mjesta koja ukazuju na njegovu iznimnu ulogu. On je poslan kao milost svjetovima, Uzvišeni Allah i meleki ga blagosiljaju, on je najljepše æudi, pokoravanje i ljubav prema Uzvišenom Allahu se dovodi u vezu sa pokoravanjem i ljubavlju prema Poslaniku. Iz ovakvih i sliènih ajeta u Kur'anu, ubrzo se razvilo poštovanje Poslanika koje dostiglo neviðene razmjere.

Muslimani smatraju Poslanika najsavršenijim èovjekom od svih Allahovih stvorenja jer ga je On izabrao i obdario svim vrlinama i savršenstvima koje neki èovjek može posjedovati.

„ Vi u Allahovu Poslaniku lijep uzor imate za onoga ko se u Allaha uzda, i Onom Svijetu nada, i puno spominje Allaha". (XXXIII:21)

Svaki vjernik smatra Poslanika primjerom za ureðenje svog vlastitog života, svaka generacija, od Poslanika do danas, prouèava njegov životopis sa željom pretakanja u svoj vlastiti život Poslanikova sunneta i boljeg razumjevanja Kur'ana. Poslanikova duhovna genealogija je utemeljena u èinu predodreðenja, preizabranja, koje se desilo u preegzistenciji. Stoga, otkrivamo dvostruki rodoslovni lanac, kako to primjeæuje prof. Hafizoviæ, transpovijesni i hijeropovijesni, Poslanika islama, koji ima svoje dvostruko egzistencijalno ukorijenjenje, u prethodnim ciklusima poslanstva i u tekstovima ranijih objava.

Jedno od Poslanikovih imena je Ahmed kao vid preegzistentnog Poslanikova, a.s., izabranja i punina svih ranijih Objava. Ovo izabranje ogleda se u èinu neopozivog polaganja svih Božijih Rijeèi na njegov duh koji je prethodio svakom tjelesnom obliku postojanja. Poslanik Ahmed a.s., veæ je bio primio Objavu kod èina ovog pre/izabranja, a njegov rast, kako duhovni tako i tjelesni, izvodi se pod nadzorom Božijim kako bi bio kadar primiti Kur'an.

Poslanik je govorio da ga je odgojio njegov Gospodar. Aiša je kazala da je Poslanikov ahlak bio Kur'an. U Kur'anu se kaže da je Poslanik najljepše æudi, karaktera.

Da se još malo vratimo Poslanikovim imenima. Naime, svako od Poslanikovih imena nosi posebnu snagu, povezano je potpuno tajnim naèinom. Ime Muhammed sadrži u sebi i glagol koji znaèi hvaliti, slaviti / H M D . Prema tome, Muhammed je onaj koji je hvale dostojan, ko je veoma slavljen. Ahmed je u znaèenju najhvaljenijeg imena. Ime Ahmed oznaèava se kao nebesko ime Muhammeda, a.s. Upravo kroz ovo potonje ime možemo razumjeti ulogu Poslanika kao velijja, Allahovog prijatelja, što se nije zbilom samim biološkim raðanjem. To primordijalno prijateljstvo kojega Allah, dž.š., prevenstveno uspostavlja sa Poslanikom, a.s., prenosi se njegovim raðanjem na cijeli svijet u znaku sveopæe milosti: „ A tebe smo kao milost svjetovima poslali" (XXI:107)

Na toj milosti poèivaju svi prijašnji poslanièki likovi i sve božanske poruke što su ih oni donosili različitim povijesnim pokoljenjima. Upravo, metapovijesnom Ahmedu, a.s., je data punina svih božanskih rijeèi, leksièka i semantièka punina je utisnuta na Poslanikovom srcu. Na osnovu toga Muhammed, a.s., zna ranije Poslanike, a oni nisu znali ništa doli da je on najodabraniji meðu njima.

Samo takva osoba je mogla svojom porukom zasjeæi u samo središte idolopoklonièke vjere, u izvor moæi i bogatstva svojih sunarodnjaka i uspjeti u tome. Snažna kontemplativnost koja je odlika Poslanika,a.s., je bila unutrašnja, dok se izvanski djelovanje. Poslanik ne bježi od tog susreta. Poslanik, a.s., naglašava da je poslan da usavrši plemenite æudi kod ljudi. On svu snagu svoga uma iscrpljuje u ispunjenju zapovijedi da trajno njeguje prirodu svakog stvorenja. Nikoga nije odbacivao, u razgovoru sa svojim ashabima je tražio rješenja za probleme, izgrađivao èvrste i nepokolebljive liènosti a potom gradio zajednicu. Ključni momenat je da nije bježao od realnosti ovoga svijeta, da je svu svoju snagu iscrpljivao kako da popravi stanje i ljudi i zajednice.

---

## MILOST SVIJETOVIMA

Posted by Seka - 2008/10/14 19:25

Ako znamo da je još pretpovijesnom Ahmedu, a.s., ukazana milost kakva nije ukazana nijednom poslaniku a koja jeste sadržana u Allahovoj, dž.š., odluci da, upravo, Muhammed, a.s., bude dovršitelj ciklusa poslanstva, da Kur'an bude „punina" svih ranijih Njegovih Objava, univerzalna poruka za sva buduæa pokoljenja, tek tada nam se razotkrivaju sva znaèenja Poslanika, a.s., kao milosti svim svjetovima. Poslanik, a.s., je dokaz Božije milosti èitavom èovjeèanstvu / rahmeten lil alemin /.

U Kur'anu stoji ( VII :157 ) da Allahova milost prekriva one koji budu slijedili, poštivali i pomagali Poslanika, a.s., koga æe naèi opisano u Tevratu i Zeburu, jer njemu je poslan Kur'an èija je poruka univerzalna. Poruka Kur'ana je upuæena èovjeèanstvu kao cjelini, nije vremenski omeðena, niti ogranièena na bilo koje posebno geografsko, kulturno podruèje.

Kur'an je iste vrijednosti danas kao i prije 1400 godina. Njegova po(r)uka je jednako snažna kako na istoku tako i na zapadu. Muhammed, a.s., je taj poslanik, Božiji izabranik preko kojeg je Kur'an kao takav, prenesen ljudskom rodu.

Pomenuta univerzalnost Kur'ana, kao vid milosti prema ljudima, ogleda se u slijedeæim èinjenicama:

- Kur'an se obraæa èitavom èovjeèanstvu neovisno o porijeklu, rasi ili kulturnom okruženju,
- Kur'an se obraæa èovjekovu razumu, prema tome, ono što saopštava Poslanik, a.s., nije nikakva dogma koja bi mogla biti prihvaæena samo na osnovu slijepe vjere,

- Kur'an je ostao neizmijenjen u svom doslovnom tekstu za razliku od svih drugih svetih knjiga poznatim povijesti. Naravno, to je u skladu sa Allahovim obeæanjem da æe ga èuvati od svakog izopaèenja do Sudnjeg dana.

Upravo na temelju ovih èinjenica Kur'an predstavlja konaèni stupanj Božije Objave a Muhammed, a.s., je posljednji od vjerovjesnika ( hatemen-nebijjin) kao što peèat ( hatem) obilježava kraj nekog dokumenta.

Poslanik, a.s., je jednom prilikom kazao da je poslan da usavrši plemenitu æud kod ljudi. Vrlo zanimljivo viðenje te Poslanikove uloge dao je prof. Hafizoviæ u Traktatima, kao bezuvjetne božanske zapovijedi Poslaniku, a.s., da da trajno njeguje i do savršenstva odnjeguje temeljnu prirodu svakog stvorenja. Vrlo je zanimljiva upotreba prenatlešenog prezentnog oblika od strane Poslanika, a.s., èija semantièka trajnost jedovremeno hvata znaèenje minulog preterita i stalno prizivajuæeg i uprisutnjujuæeg futura /an utemmime/. Prema tome, trajnost Poslanikove poruke zraèi kao :

- perfekatska - ukoliko se oèituje u duhovnom njegovanju personaliteta Poslanika islama kao božanskog izabranika,
- prezentna - tako što se njome u konkretnom povijesnom èasu zraèi živi poslanièki primjer i

- faturalna- ukoliko kroz sve nadolazeæe vijekove svjedoèi neprolaznu mladost Poslanikovih, a.s., rijeèi, djela i postupaka.

Doista, milost koja nam je ukazana u Poslaniku, a.s., je moguæe pravilno shvatiti i razumjeti u smislu njene trajnosti. Poslanik, a.s., je bio paradigma za ureðenje vjernièkog života prije èetnaest vijekova, dan-danas on je uzor vjernicima a tako æe biti do Sudnjega dana.

Nepregledni su svi vidovi Allahove,dž.š., milosti u slanju Poslanika, a.s.. Zato vjernik pri svakoj prilici blagosilja svog Poslanika, na takav naèin sudjeluje u blagosiljanju kojeg èine Allah, dž.š., i meleki.

„ Allah i Njegovi meleki blagosiljaju Vjerovjesnika, o vjernici, blagosiljajte ga i vi, i pozdrav mu šaljte" ( XXXIII:56 )

Po Maverdiju, zadnji dio ajeta ve sellimu teslima može biti protumaèen u znaèenju da budemo predani i pokorni potpuno Poslanikovo zapovijedi.

Svaki vjernik prilikom poziva na namaz/ ezana, uèi dovu, moli Allaha, dž.š., da da Poslaniku a.s., vesilet-visoko i najljepše mjesto u Džennetu, i fadilet-svako dobro, / ati muhammedinil vesilete vel fedileh/, te da ga uzdigne na najhvaljenije mjesto/ mekamen mahmuden/ kojeg je obeæao. Allahovo obeæanje æe zasigurno biti ispunjeno i bez naše dove ali mi sa

---

svojom dovom se uključujemo u kosmičko blagosiljanje našeg Poslanika, a.s., tražujući za Allahovom milošću koja nam je poslata njegovim poslanjem.

---

below to learn more around the most effective diet plan to lose weight rapidly that's ever existed. [read more](#) Only a few rice a health care log revealed exploration placed in Germany that linked the intake of waters to greater metabolic rate. They have found out that what's available for will beverage 17 oz of of water they have been getting rid of fat laden calories 30Percentage much more when compared that from not mineral water. This acquiring highlights the correlation concerning the action of water and burning calories. One way why that one could lose weight rapidly by mineral water is always that it's going to typically decrease snacking. Previous to all your family snack quantity of the days or days look at having a goblet or a couple of drinking water. For anyone who is even now hungry back then proceed to consume a lighting balanced munch. But discover greedy anymore then you've rescued on your own from calories from fat!Water also provides power.

Losing weight is actually a significant problem for many people. They would like to lose weight but pick the wrong way to do it. You will discover important factors to consider before you could lose weight. Listed below are 7 established ways to lose weight at this time. Eat GrainsEat cereals and forget all of the unhealthy food that prevent your entire body from losing weight. Grains are healthy and filled with critical roughage which prevent you contented all day every day. It is rarely a smart idea to go hungry at all hours then hair all the way down food as tall as mount everest. Take in balanced minuscule food lacking in calorie consumption and in managed portions. Eliminate the JunkWhen it comes to weight reduction, sugars is general public adversary primary.

That goes for your buying way too - create a list and stay with it. You will probably discover the drastically wrong foodstuff if you just grab a little something after you feel hungry. Reduce your consumption of all 100 % pure and extra extra fat by 50Per-cent. This indicates is when you find yourself possessing toast, loaves of bread or muffins, use fifty percent your standard volume of butter - 50 percent your normal level of outfitting or mayonnaise for your greens - and 50 percent the acrylic inside griddle. For goodies and sugars, have at the least two portions of fresh fruit each day.

Avoid eating junk food as they include many salt and additives and preservatives. Avoid eating locations, because they leftovers, when reheated, eliminate a lot of their nutritional value. Locations are also oxidized and interferes with usual working that decreases weight-loss. Baking pan come meats within a neo-stick skillet with no body fat. Use dropped fish which is packed in normal water, not acrylic. Switch 50 % of the essential oil found in salad getting dressed with broth or drinking water.

As a result, it is important you also start being active . degree of dairy products like curd and skimmed milk products in what you eat on a regular basis. Putting aside the above talked about, avoid unhealthy foods, caffeinated drinks, aerated products and slimy meals. Sleeping and common regular activities also kind an essential part on the great weight loss plan.

The dwelling plus the process of fast loans for jobless is similar to the payday loans. Payday loans would have never coppied to a not working particular person, but fast loans for out of work do. The pace of acceptance is one of the most critical attributes to consider inside a speedy loan for without a job. As i've already explained, fast loan for not working is going to be utilized on the way to fulfilment of erogenous requirements. Until the amount of money on loan is gotten fast, the wants will have to continue being unsatisfied. This means that in case the loan will be useful for shopping for ration, customer will need to do without having his day-to-day meal if loan consent is delayed. What completely sets itself apart fast loans for unemployed on the common loans is because are permitted comprehend, rather than t least several weeks that passes amongst use and approval of regular loans. payday uk The very last purpose is payday loans are near future loans. Applying everyday home interest rates couldn't survive money-making for the children. What's more, as you will need to cash loan by the future look at, it shouldn't be that large a weight for you. So, they work as a reason to repay the loan by the due date. Should you demand a higher sum than this, you may want to reevaluate your desire to have a payday loan, and go on a very own loan instead. Should you have a low credit score history and need only a smaller volume, payday loans is often suited to you since they're also granted to those with low credit score historical past.
